## ABOUT ME

Love to do problem solving and learn new technologies

## EDUCATION

### Ahsanullah University of Science and Technology

2018 - present

**CGPA: 3.758**

### Dhaka Imperial College

2015 - 2017

**GPA: 5.00**

### Faizur Rahman Ideal Institute

2008 - 2015

**GPA: 5.00**

[Watch the demo of these projects from my portfolio. See my other projects on my GitHub.]

## PROJECTS

### JobFinder

[Website made in ASP.NET MVC]

- Companies can post vacancies
- Job seekers can apply to those posts
- Job seekers can upload their CV and update their profile
- Companies can see the profile of those who applied to their posts
- Companies can write recommendations about job seekers and job seekers can write reviews about companies
- Companies can search people based on their skills

### NoWasteNoHunger

[Android App made in Java]

- Users can post about their leftovers
- Other users can see these posts and collect the leftovers from the given address in the post
- The users who post about their leftovers will be sent an SMS when others are willing to collect the leftovers
- The users can lodge a complaint to the admin by sending a mail

### Covid Protection Store [E-Commerce Website made in PHP]

- The customers can view products and order them
- The admin can add new products from the admin pane.
- Registered customers can view extra products from their account
- The customers can send mails to the admin
- The admin can view the orders and mails from the customers

## EXPERIENCE

### Vice President

January 11, 2022 - present

### AUST Robotics Club

Took a workshop on 'Building a Voice-Controlled Automated Home' [Workshop Link](#)

## MORE ABOUT ME

I am currently working with the Blockchain technology as part of my thesis. I am also very keen in co-curricular activities. As such, I am the founding Vice President of AUST Robotics Club in my university.
